### **Solo:**

October events were well attended with ~60 attendees each day.

The van needs some work. A radiator and associated parts will be about \$500 to repair, and is authorized by the board.

Next year the airport at Stead is pending construction. Availability of the site is in question. Don will pay anyone who can find an autocross site with free solos for a year. Possibilities : Truckee airport, South Tahoe airport, GSR, anywhere else?

### **Track:**

October Event was unusual because we ran concurrently with double regional by SFR. The West course was rented by SFR at a big discount , which was passed to the Reno Region.

We also got to use the East course for a 2 PDX and 2 TT sessions on Sunday.

Track events were sponsored by a member so our overall cost was significantly reduced. We expect to clear \$8-9k for the Sat and Sunday events.

The events were safely run, no contact and no tow truck or emergency vehicle deployments.

For future events next year, we may have to expand where we look for participants. Club will plan a separate meeting to decide what events we are going to have for next year.

June 9, Aug 18, Sept 22 are possible dates for next year.

**New Business:** Awards Banquet is Nov 11, sign up on MSR or mail form to Carol. Special rates at the hotel Fandango, for anyone who wishes to stay overnight. See Carol or the Hotel for info.

National Convention is in January 18-20, registration is open. Club will reimburse Region Reps, need to know who is interested in attending soon.

Carol will look at using Stead in April for Street Survival.
